## Technical Skills

Languages	Platforms & Tools	Math / Research	Hobbies / Interests
<ul style="list-style-type: none"><li>• Java, Ruby</li><li>• PHP, Python, Perl</li><li>• <i>Mathematica</i>, MATLAB</li><li>• Javascript, Erlang</li></ul>	<ul style="list-style-type: none"><li>• OS X, Linux</li><li>• Rails, Symfony</li><li>• DB2, MySQL, SQLite</li><li>• Git, Vim, Eclipse</li></ul>	<ul style="list-style-type: none"><li>• Finite Element Analysis</li><li>• Genetic Algorithms</li><li>• Numerov Block Methods</li><li>• Math Ed Pedagogy</li></ul>	<ul style="list-style-type: none"><li>• K-5 Math Education</li><li>• Effects of Poverty on Learning Outcomes</li><li>• Teaching / Tutoring</li></ul>

## Software Development Experience

IBM Corporation	San Jose, CA	August 2010 - December 2010
-----------------	--------------	-----------------------------

Software Engineering Co-op, DB2 Cubing Services / Cognos ROLAP

- Prototyped new scalability enhancements for ROLAP server's internal data cache
- Researched alternative cache-update policies, analyzing the performance benefits of each
- Effectively marketed these proposals to senior architects and upper level management

IBM Corporation	San Jose, CA	May 2010 - August 2010
-----------------	--------------	------------------------

Extreme Blue Technical Intern

- Developed new Java-based software analysis tools for IBM's internal PL/X and PL/I languages
- Constructed PL/X parsing and static-analysis library using JavaCC parser generator tool
- Gave several presentations to senior engineers & management persuading them to adopt our tool

Korovasoft, Inc.	Clarksville, TN	December 2007 - Present
------------------	-----------------	-------------------------

Founder & Lead Software Engineer

- Recruited and led team of 3 developers in building web-based (Ruby on Rails) purchasing software
- Software decreased time of client's purchasing process by more than 50%
- Currently developing new mobile and web infrastructure for TN Secondary School Athletic Assn

VCCH, Inc.	Springfield, TN	August 2003 - September 2007
------------	-----------------	------------------------------

Software Development Intern

- Led team of 3 developers in customizing an open source accounting package for gas & water utilities
- Helped bring water service into compliance with Tennessee record keeping laws
- Developed a multitude of internal tools to help support Asterisk PBX deployments

## Education / Research Experience

Austin Peay State University	Clarksville, TN	B.S., Mathematics, December 2012
------------------------------	-----------------	----------------------------------

Research Assistant to Dr. Samuel Jator

- Streamlined *Mathematica*-based Numerical Analysis software in a team of 2
- Refactored existing software into modularized components to facilitate code reuse
- Published in *Numerical Algorithms*, <http://www.springerlink.com/index/e674516w43821148.pdf>

Research Assistant to Dr. Ben Ntatin

- Developed *Mathematica*-based Finite Element Analysis software in a team of 3
- Automatically parallelizes on adhoc cluster of *Mathematica* workstations
- Applied load-balancing techniques to solve complex problems with only a handful of machines
